Consent for the storage of your credit card data

Dear Customer

The protection and security of the personal data of our customers and suppliers as well as of our employees is a high priority for us. Therefore, we adhere strictly to the rules of the current German Federal Data Protection Act (BDSG) and the General Data Protection Regulation (GDPR), which came into effect on 25 May 2018.

As part of a purchase agreement, we collected and saved your credit card information to perform the payment of your purchase. The legal basis for this arises from Article 6 (1) (b) GDPR, since the data was needed to fulfill our contract. In addition, the data is "required" because without this information, the payment cannot be processed. Pursuant to § 28, the collection, storage and transfer of personal data or its use as means for the fulfillment of their own business purposes is permissible if it is necessary for the creation, implementation or termination of a legal or legitimate relationship with the data subject.

After completing the payment process, there is no further legal obligation or legitimate interest for us to store the credit card data so we would have to delete it.

However, if you provide us written consent to retain your credit card information we are legally allowed to keep the data on file to expedite any future purchases. The storage of the credit card data will considerably speed up the processing of your orders. This is therefore also in your interest. For this reason, we ask for your consent to store your credit card information. You can revoke this consent at any time. The storage of the credit card data is encrypted and remains in our custody. The information will not be passed on except to settle your payment to the bank. We also refer to our privacy policy on www.pika.de. If you agree, please send us the form by fax to +49 (6031) - 7212 20 or as an e-mail attachment to versand@pika.de. Many Thanks!

I agree with the storage of my credit card details without the security code and I can revoke it at any time.

I disagree with the storage of my credit cards details
